Prior To Use
Please read the manual carefully before installing your system and follow all directions to ensure proper installation.

Safety Precautions
To reduce the risk of electrical shock and injury, please follow these basic safety precautions.
1. Carefully read and observe the instructions in this manual.
2. Follow all warnings marked on the unit.
3. Must set the time and the date when batteries are replaced.
4. Unplug this product from the wall outlet before cleaning, use a damp cloth to wipe. Do not use liquid or aerosol cleaners.
5. Do not place objects on the line cord that may cause damage.
6. Do not place the Outdoor phone near the metal.
7. Pay attention to the polarity of the batteries, insert the rechargeable batteries in accordance with polarity symbols (this instruction is found in the installing batteries section.)
8. Keep the phone out of the reach of children.
9. Use the phone only in the described manner.
10. Stop using the phone if its damaged.

Engineering Mode

Delete the Usage Mode
1. Press and hold the [ ] and [ ] beneath Menu at the same time about 5 seconds in standby mode, then the display will show as follows:

   Registration
   Cleared!

2. After 5 seconds, it will exit automatically.

Change the Unlock Time
1. Press and hold the [ ] and [ ] beneath Menu at the same time about 5 seconds in standby mode, then the display will show as follow:

   Unlock Time
   1# 5S

2. Press Left [ ] or Right [ ] to select the Outdoor phone.
3. Press Up [ ] or Down [ ] to select the unlock time (1-25 are selectable), then press the Right soft key [ ] to confirm, the display will show SAVE OK.
4. After 5 seconds, it will exit automatically.

Introduction

- Supports up to 4 outdoor units
- 2.4" (320x240) web QVGA LCD display
- Video resolution: 320p x 240p, with 25 pictures per second
- Wide angle lens and LED for night vision
- Long standby doorbell (battery up to 2 years or connect with DC<9~12V)
- Water-proof outdoor station Ip55
- Microphone and speaker phone
- Brightness and talk volume are adjustable
- Crystal clear sound quality
- Transmitting distance: with up to 200m range of doors
- Transmitting distance: with up to 50m range indoors
- Remote door opening (Optional)
- DIY installation to save high labor cost

Unpacking

Once you have unpacked your door phones, make sure that all the parts shown below are available. If any piece is missing or broken, please call your dealer.
Chapter 6: Snap Show

The pictures will store in this menu, you can save or delete them. On the left of the picture will display the corresponding Outdoor phones number.

1. Press \( \text{Menu} \) beneath Menu to display the main menu items.
2. Press Up \( \uparrow \) or Down \( \downarrow \) to choose \( \text{Menu} \), then press \( \text{Select} \) beneath Select.
3. Press Left \( \leftarrow \) or Right \( \rightarrow \) to browse pictures.
4. If you want to delete the current pictures, use Left \( \leftarrow \) or Right \( \rightarrow \) to choose Delete, press the \( \text{Yes} \) beneath Del. The display will show Delete 7. Press \( \text{Yes} \) beneath Yes to confirm. After a beep the LCD shows the next picture.
5. Press \( \text{Back} \) beneath Back to return to the previous menu.

Chapter 7: Default Setting

This function allows you to reset the handset settings to the factory default.

1. Press \( \text{Menu} \) beneath Menu to display the main menu items.
2. Press Up \( \uparrow \) or Down \( \downarrow \) to choose \( \text{Menu} \), then press \( \text{Select} \) beneath Select.
3. Press Up \( \uparrow \) or Down \( \downarrow \) to choose YES or NO to enable or disable the function.
4. Press \( \text{Select} \) beneath Select to save the settings and return to the previous menu.

Result: After resetting, the handset will return to standby mode.

Notes:
- If you reset the handset to the factory default, all of the settings will return to the factory default.
Chapter 4: Key Tone

Every time you press a key, your handset acknowledges it with a key tone. You can disable the key tones for a silent use. In certain error conditions, a warning tone will sound when an incorrect key is pressed.
1. Press \( \text{Menu} \) beneath \( \text{Menu} \) to display the main menu items.
2. Press Up \( \text{Up} \) or Down \( \text{Down} \) to choose \( \text{Select} \), then press \( \text{Select} \) beneath \( \text{Select} \).
3. Press Up \( \text{Up} \) or Down \( \text{Down} \) to choose ON or OFF to enable or disable the function.
4. Press \( \text{Select} \) beneath \( \text{Select} \) to save the settings and return to the previous menu.

Chapter 5: Snap Setting

The unique Snap Shot function records up to 50 photos of whoever visits your home whether you are there or not. To get this Auto Snap, please set it up in the indoor handset as follows.
1. Press \( \text{Menu} \) beneath \( \text{Menu} \) to display the main menu items.
2. Press Up \( \text{Up} \) or Down \( \text{Down} \) to choose \( \text{Select} \), then press \( \text{Select} \) beneath \( \text{Select} \).
3. Press Up \( \text{Up} \) or Down \( \text{Down} \) to choose ON or OFF to enable or disable the function.
4. Press \( \text{Select} \) beneath \( \text{Select} \) to save the settings and return to the previous menu.

With this Auto Snap On, the camera will take a photo of the visitor automatically when they press the Call button on the Outdoor unit. You can then see the photo on the handset.

Notes:
- During a conversation, the camera can take a photo of a visitor if you press the Snap key and save it into the handset.
- During monitoring, the camera can take a photo of the view if you press Snap key and save it into the handset.
- Up to 50 photos can be stored in the handset. The previous ones will be replaced automatically when the photos exceed 50 snaps in the handset.
Installing Batteries

Indoor Phone

The rechargeable Ni-MH batteries (AAA size, 1.2V, 800mAh) are provided with your phone. Install the batteries before use.

1. Insert new batteries as indicated, matching correct polarity (+,-).
2. To replace the battery cover, slide the cover up until it snaps in place.
3. Notes:
   - Reversing the orientation may damage the handset.
   - The batteries need to be replaced if they do not recover their full storage capacities after recharging.
   - When replacing the batteries, always use good quality Ni-MH rechargeable batteries. Never use other batteries or conventional alkaline batteries.

Chapter 2: Volume

This function allows you to adjust the volume (9 levels are adjustable) during a call.

1. Press \( \mathbf{\text{Menu}} \) beneath \( \mathbf{\text{Menu}} \) to display the main menu items.
2. Press Up \( \mathbf{\text{Up}} \) or Down \( \mathbf{\text{Down}} \) to choose \( \mathbf{\text{Select}} \), then press \( \mathbf{\text{Select}} \) beneath Select.
3. Press Left \( \mathbf{\text{Left}} \) or Right \( \mathbf{\text{Right}} \) to select the volume that you like. Each time you press Left \( \mathbf{\text{Left}} \) or Right \( \mathbf{\text{Right}} \), the handset emits a sound with the selected volume.
4. Press \( \mathbf{\text{Menu}} \) beneath Black to save the settings and return to the previous menu.

Notes:
- Also, you can use Left \( \mathbf{\text{Left}} \) or Right \( \mathbf{\text{Right}} \) key to adjust the volume in the standby mode.

Chapter 3: Brightness

This function allows you to adjust the light level (9 levels are adjustable).

1. Press \( \mathbf{\text{Menu}} \) beneath \( \mathbf{\text{Menu}} \) to display the main menu items.
2. Press Up \( \mathbf{\text{Up}} \) or Down \( \mathbf{\text{Down}} \) to choose \( \mathbf{\text{Select}} \), then press \( \mathbf{\text{Select}} \) beneath Select.
3. Press Left \( \mathbf{\text{Left}} \) or Right \( \mathbf{\text{Right}} \) to select the light level that you like. Each time you press Left \( \mathbf{\text{Left}} \) or Right \( \mathbf{\text{Right}} \), the handset brightens with the selected light level.
4. Press \( \mathbf{\text{Menu}} \) beneath Black to save the settings and return to the previous menu.

Notes:
- Also, you can use Up \( \mathbf{\text{Up}} \) or Down \( \mathbf{\text{Down}} \) key to adjust the light level in the standby mode.
Menu Description (continued)

Chapter 1: Date & Time
1. Press \( \) beneath Menu to display the main menu items.
2. Press Up \( \) or Down \( \) to choose \( \), then press \( \) beneath Select.
3. If you want to set time, you can press Left \( \) or Right \( \) to choose the Hour or the Minute, and press the Up \( \) or Down \( \) to adjust.
4. If you want to select the date, you can press Left \( \) or Right \( \) to choose the Year or the Month or the Date, and press the Up \( \) or Down \( \) to adjust.
5. Press \( \) beneath Black to return to the previous menu.

Notes:
- The time format is 24-hour and the date format is YY-MM-DD.
- The Date & Time must be set beforehand to ensure that the time display on the monitoring pictures are correct.
- When you replace batteries, you must set the time and the date again.
- The Date & Time setting order is Hour -> Minute -> Year -> Month -> Date.

Outdoor Phone
1. Install two C size batteries (not supplied) into the battery compartment.
2. Drill four screws to fix the battery cover up.

Charging Handset

*Important Note:* Before initial operation, YOU SHOULD FULLY CHARGE THE HANDSET for about 15 hours.

To charge the handset, you should place it on the charger.

Installation Instruction

Indoor Phone
Connect the modular end of the AC power adaptor to the power jack of the charger, then plug the AC adaptor into a standard AC wall outlet.
Outdoor Phone
1. Choose a proper location for the outdoor phone. Be sure to consider the average height of visitors.
2. Align the rain cover and screws with the holes in the wall.
3. Install the outdoor phone into the rain cover. Please refer to the picture 3 below.
4. Drill a screw to fix and finish the installation.

Notes:
- Away from electrical appliances, such as a TV, personal computer or another cordless phone.
- In a high and central location with no obstructions such as walls, microwave oven and WIFI.
- Slide the antenna locking switch to unlocking position, the receiver antenna will pop up to receive better signal.

Calling Indoor phone
In standby mode, press the call button on the Outdoor phone. The corresponding indoor phone rings, and the image of the visitor appears on the LCD of the indoor phone.
1. If the master does not want to answer, press to cancel the ringer and the video.
2. After the master presses , the outdoor phone will stop ringing and the conversation starts.
3. Press to end the conversation.

Notes:
- The conversation can be up to 2 minutes. After 2 minutes, the line will be disconnected automatically.
- The monitor process can be up to 5 minutes. After 5 minutes, the phone will quit monitor mode automatically.

Unlocking
During a conversation, to unlock the door, press on the Outdoor phone.

Light Sensor
In the evening, when someone presses the Call button on the Outdoor phone, all the LED lights will light on.
Operations

Monitor

About the monitor function, the LCD will automatically display the corresponding menu according to the registered Outdoor phones.

1. In the standby mode, press [ ] beneath Mon.
2. When registering one Outdoor phone, the LCD will display 1# Outdoor phone.
3. When registering two or more Outdoor phones, the LCD will display 1#, 2#, ...

Monitor (Pictures below), and you can press Up [ ] or Down [ ] to choose the monitor you need, then press [ ] beneath Select.

Diagram

Connection Mode 1:

- [Diagram]

Connection Mode 2:

- [Diagram]

Notes:

- Both the batteries and the power supply are available, but not to use them at the same time. To support some special functions, like monitoring, backlight, on the all button and unlocking, please connect the power supply.
Operations

Turning On / Off
To turn the indoor phone on, press.
To turn the indoor phone off, press.

Register
First press the Call button on the Outdoor phone, then hold the Register key on the back of the Outdoor phone until the LED light blinks. Second, press beneath Menu on the indoor phone, then select the Register menu. Once a prompt tone is heard, the Outdoor phone has been registered to the indoor phone successfully.
If the prompt tone is heard twice at registration, the registration was unsuccessful.
Turn off the Indoor phone before you hold the Register key. Then turn on the Indoor phone again, re-install the Outdoor phone batteries and try again.

The indoor phone can support up to 4 Outdoor phones.

1. When you have registered one Outdoor phone, the register interface will display as below:

   ![Register 2 #]

   Select  Back

2. When you have registered 4 Outdoor phone, the register interface will display as below:

   ![Register Full]

   Select  Back
